

Using Overdrive on your Android Device

Step 1: Turn on your device and tap the Google Play Store app.

- If you haven't added an email account to your device, you'll be prompted to "**Add a Google Account**"
- Follow the instructions on the device, which will walk you through either signing into an existing Google account or creating a new Google account. Once you have added your existing Google account or created a new account, you'll be able to use Google Play Store to download Android apps.
- If you have a Kobo Vox or Arc and do not see Google Play Store on your device, use your device's web browser to go to <https://app.overdrive.com/>

Search Google Play Store for **OverDrive** and tap **Install** to download the app.

Step 2: Touch **Sign up** to create your OverDrive account. You can do this using your library card or Facebook, or by entering your name, email address, and creating a password. Follow the instructions to complete the sign in process.

Step 3: Close Google Play Store and tap to open the OverDrive app from the list of apps or your home screen.

The **Home menu** button may appear as a blue logo or as the hamburger button. Tap it to begin.

Innisfil has two different collections, so you'll need to set up your app to give you access to both.

Tap **Add A Library** to choose a library. Search for **Innisfil** and tap to add a star next to our two collections, **Libraries on the Go** and **County of Simcoe (PULSE)**. Then tap either one of the collections to begin looking for books.

Step 4: Access to titles is limited to library customers only. Tap **Sign In**, tap to choose Innisfil from the drop-down menu, and enter your library card number.

Step 5: Search or browse for the title you want.

You will see a banner at the top of the book that says **Available** or **Wait List**, and an **ebook** or **eaudiobook** icon near the bottom. At the bottom, tap **Borrow** to borrow a copy right away, or **Place a Hold** to get in line for the book you're waiting for. Tap on the **Bookmark** icon to add it to your **Wish List** to read later, or the **More** (three dot) icon for more information on the title.

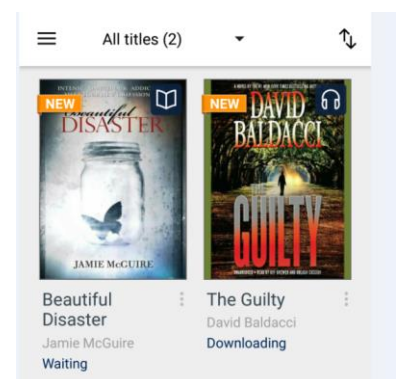

Once you've borrowed your books, tap the **Loans** icon and choose **Listen/Read Now** to open the book in your browser, or **Add to App** to download the books to your device for offline use. You can also return your books from here.

Step 6: To see the titles you've downloaded from both of your library's collections, tap the **Home** menu again and go to your **Bookshelf**.

To begin reading, touch the cover of a book. A tutorial will automatically start to teach you how to use the app, including information on how to return and delete books. Use the **Help** section of the Home menu to access assistance whenever you need it.
